

MASSAUD COLLECTION

Jean-Marie Massaud, FRANCE

coalesse®

Liberating.

Part Work. Part Refuge.

Designed for comfort and connecting with technology, the Massaud Lounge with Ottoman is an alternative destination to work, contemplate or relax. Balancing productivity with a residential sensibility, the collection by Jean-Marie Massaud imagines work in a mobile state of mind.

Freed from Convention.

As mobile devices free people from the permanency of a single workspace, the desk is no longer the only hub for productivity. Mindful of comfort and posture, the Massaud Work Lounge is designed to serve technology and transient work needs.

————— Comfort comes in all forms. From the physical to the emotional, the Massaud Work Lounge is designed for relaxed postures and the ultimate peace of mind. Work productively in the office or from the comfort of home, all without compromising residential appeal.

Unconfined.

Work alone, together. The Massaud Lounge creates a self-contained workspace with an open-air sensibility. Perfect for collecting thoughts or connecting with the energy in the room. It's a personal space designed for the public square.
